News Release

FOR IMMEDIATE RELEASE - TUESDAY, NOVEMBER 13, 2018

Aviation Glass & Technology appoints William Meier as Sales Director for the Americas Region

- *Joins AGT from Rexnord Aerospace*
- *Seasoned professional bringing nearly 20 years of aviation experience*

AviationGlass & Technology (AGT) - an innovative Dutch company manufacturing and supplying certified glass products for the global aviation industry – announced today that it has appointed William Meier as its Sales Director for the Americas region. Mr. Meier’s main focus is to accelerate the company’s market expansion, develop new business relationships and strengthen existing relationships with the aviation customer base by offering full support in this region.

Mr. Meier joins Aviation Glass & Technology from Rexnord Aerospace, where he served as a National Sales Manager. He is a seasoned professional bringing nearly 20 years of aviation experience and has held key sales, business development and operations management positions.

A Greek national, Mr. Meier holds a postgraduate master’s degree in business administration from the University of Strathclyde in the UK and earned a Bachelor of Science in finance from the University of Illinois in Urbana-Champaign, USA. He is a licensed FAA airframe and power plant technician.

Mr. Meier will work out of Chicago, Illinois, and will report directly to Jacob Wiersema. He will be working closely with colleagues in the Netherlands to coordinate sales and technical activities for the Americas region.

Jacob Wiersema, Aviation Glass & Technology’s COO, said, “We are delighted to welcome William to the AGT team. I have faith in his ability to provide our customers with the requested and required support as AGT’s Sales Director for the Americas Region. William’s extensive experience in the aviation industry will further accelerate AGT’s market expansion efforts in the region while offering our company local presence and visibility in the region.”

AVIATION GLASS

About Aviation Glass & Technology B.V.

Aviation Glass & Technology (AGT), supplying certified glass products to the global aviation industry since 2013, specializes in the research, development and production of glass mirrors, transparencies and ornamental panels for commercial and business jet cabin interiors. The company's state-of-the-art production facility in Voorthuizen, in the Netherlands, produces high-quality glass products for aircraft cabin interiors. AGT's unique AeroGlass portfolio creates the ultimate on-board experience by providing superior optical quality via crystal-clear (99.9% transparent) panels and mirrors. AeroGlass is lightweight and ultra-thin (up to 50% thinner and 25% lighter than traditional polycarbonate products) yet highly robust, as well as scratch-resistant and UV-protective.
